

# MarineHack 2025

## Unlocking Innovation for a Sustainable Maritime Future

### Organized By:

### Supporting Organization:

### Sponsors:

BLACKSMITH

# Objectives of the Hackathon

## Our inspiration

Align innovation with the **United Nations 17 Sustainable Development Goals (SDG)**, focusing on maritime business.

## The goal

Encourage students from around Malaysia to create **innovative, sustainable, and commercially viable solutions** for maritime challenges.

## Hackathon Theme:

“Navigating Tomorrow: Smart Solutions for a Sustainable Maritime Industry”

# Why Maritime Business?

Critical roles in achieving UN SDG 14 and SDG 9

## 40%

of Malaysia's GDP contributed by  
Maritime Industry

## \$5.61b

2032 projected value of maritime  
software market, increasing from  
\$2.25b in 2024

Source: Polaris Market Research Report, 2024-2032

# Prizes and Recognition

## 1st

**RM 10,000** + opportunity to **pilot** the solution with **PinC Technology**  
(6 months)

## 2nd

**RM 7,500** + **mentorship** from industry leaders

## 3rd

**RM 5,000** + access to **innovation workshop**  
(up to RM1,000)

### Special Awards:

- Most Sustainable Solutions
- Best Technical Implementation

# Hackathon Framework

Over **4 months**, groups will have the chance to **propose, refine and test out potential ideas** and projects. Technology solutions can include anything from **AI to IoT**.

## Who can participate?

- University students from around Malaysia
  - Specifically targeting computing and business students
- Team of 3-5 members which may include a lecturer as a mentor if groups should choose

## Focus areas

### 1. Route Optimization:

- Build AI-powered tools to optimize vessel routes, reducing fuel consumption and emissions while ensuring user-friendly navigation.

### 2. Marine Pollution Detection:

- Develop data-driven tools to detect and report marine pollution, using Big Data Analytics for real-time monitoring and response.

### 3. Safety & Efficiency Solutions:

- Design affordable IoT-based solutions to enhance safety and efficiency for small vessels and ports through real-time monitoring and automation.

## Deliverables

1. Conceptual prototype or basic digital model (app mockups, sensor prototypes, dashboards)
2. Simplified business model showing real-world impact and feasibility

# Hackathon Framework (Cont..)

## Stage 1: Initiation

**Date:** 1<sup>st</sup> – 14<sup>th</sup> July 2025

**Duration:** 2 weeks

**Mode:** Online

Groups are to form; brainstorm and submit potential ideas and projects they are interested in developing within the competition guidelines.

## Stage 3: Semi-Finals

**Date:** 15<sup>th</sup> September – 15<sup>th</sup> October 2025

**Duration:** 1 month

**Mode:** Online

After the 2nd judging and feedback session, those who continue into the finals will be given one more month to refine their projects and resume building their project.

## Stage 2: Quarter Finals

**Date:** 1<sup>st</sup> – 31<sup>st</sup> August 2025

**Duration:** 1 month

**Mode:** Online

Actual development of the projects commences after their ideas have been accepted. Groups will have one month to build a preliminary product for judging into the semi-finals.

## Stage 4: Final Pitches

**Date:** 15<sup>th</sup> & 16<sup>th</sup> November 2025

**Duration:** Full Day Event

**Mode:** In-person at UMS, Labuan Campus

Finalists are to present their projects to the judges for evaluation. Audience members, which will include students, other participants, industry members and staff will be able to vote for an audience choice award.

# Key Activities

## Pre-Hackathon Workshop:

- Introduction to maritime challenges
- Expert talks on SDGs, maritime innovation, and applications of AI, IoT, and Big Data resources needed to complete the project

## Finals:

- In-person final pitches to the judges and showcase of what they've achieved within the hackathon
- Sponsors exhibition to engage and network with participants

## Hackathon Duration:

- 4 months for solution development

## Judging Criteria:

1. **Innovation:** Originality and creativity
2. **Sustainability Impact:** Alignment with SDGs
3. **Feasibility:** Technical viability
4. **Commercial Potential:** Market readiness and scalability

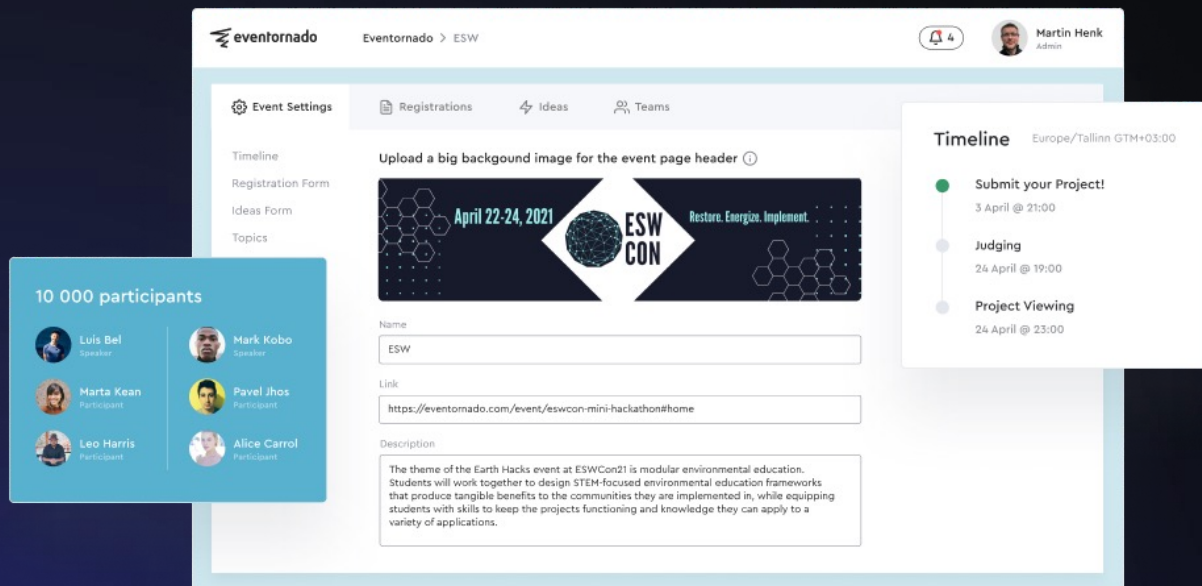

# Key Milestones

<b>21 May 2025</b>	<ul style="list-style-type: none"><li>• <b>Official Launch of MarineHack 2025</b></li><li>• <b>Open for registration</b></li></ul>
<b>23 June 2025</b>	<ul style="list-style-type: none"><li>• <b>Pre-Hackathon Workshop</b></li></ul>
<b>1 July – 14 July 2025</b>	<ul style="list-style-type: none"><li>• <b>Stage 1: Initiation (online)</b></li><li>• <b>Online submission of ideas</b></li></ul>
<b>1 August – 31 August 2025</b>	<ul style="list-style-type: none"><li>• <b>Stage 2: Quarter Finals (online)</b></li></ul>
<b>15 September – 15 October 2025</b>	<ul style="list-style-type: none"><li>• <b>Stage 3: Semi Finals (online)</b></li></ul>
<b>15 November – 16 November 2025</b>	<ul style="list-style-type: none"><li>• <b>Stage 4: Final Pitches (in person)</b></li><li>• <b>Award Ceremony</b></li></ul>
<b>January – February 2026</b>	<ul style="list-style-type: none"><li>• <b>Post Hackathon Incubation Program</b></li></ul>

# Hackathon Platform

- **EventTornado** is a **proven platform** that allows us to run Online and Offline Hackathon event.
- **Single platform** to manage event, registration, team activities, marketing, hackathon submission and evaluation.
- **Compliance** with General Data Protection Regulation (GDPR).

# Expected Outcome

1. **Innovation Foundry:** Innovative solutions addressing key maritime challenges through AI, IoT and Big Data Analytics
2. **Talent Development:** Empower participants with practical skills in cutting-edge technologies
3. **Student Marketability:** Showcase students capabilities to potential employers and industry stakeholders, boosting career opportunities

# Thanks!
